Callout 1 (top): Enter your preferences for the rail search here. (Points to the Rail tab and the main form area)

Callout 2 (bottom): Click "Next" when you have entered all preferences. (Points to the Next button)

- You can specify whether you want a one-way trip, a round trip or a seat reservation only.
- If you put the "x" next to direct connections only, you will only see direct connections - where possible.
- By selecting a "Train type," you can exclude or explicitly select certain train types, such as ICE journeys.
- The traveller's date of birth is required to receive the applicable fare.
- If your rail card is not yet stored in your profile, you can add it here for the search.

Useful functions for the rail vacancy display

The screenshot displays the Lufthansa City Center ALR Business Travel interface. The top navigation bar includes 'Flight', 'Rail', and 'Hotel' tabs. The 'Rail' tab is active, showing search results for the route München Hbf to Köln Messe/Deutz. The results are sorted by duration, with a 'Filter' sidebar on the left. A callout explains that the pin icon in the header is used to narrow down results to preferred train combinations. Another callout points to the 'Fares' button, indicating that rail connections can be sent by email or printed as a PDF. A third callout points to the 'Sort by' dropdown, explaining that results are sorted by duration and can be changed to other criteria like price.

Callout 1: Use the pin to narrow down the results list so that only the combinations with your preferred train are displayed.

Callout 2: Send a selection of rail connections by email or print the results list as a PDF by marking the desired rail connections here and then saving them as a PDF document, printing it or sending it by email using the  symbol in the header.

Callout 3: The results list is sorted by duration within the time frame. You can change the sorting here (e.g. by price).
