Click on the triangle to get detailed information about the station and rental car capacity.

If the search does not deliver the desired results directly, you can adjust the query parameters using "Change search".

Here you can see the distance to the selected pick-up location.

Here you can see an overview of the rental car equipment.

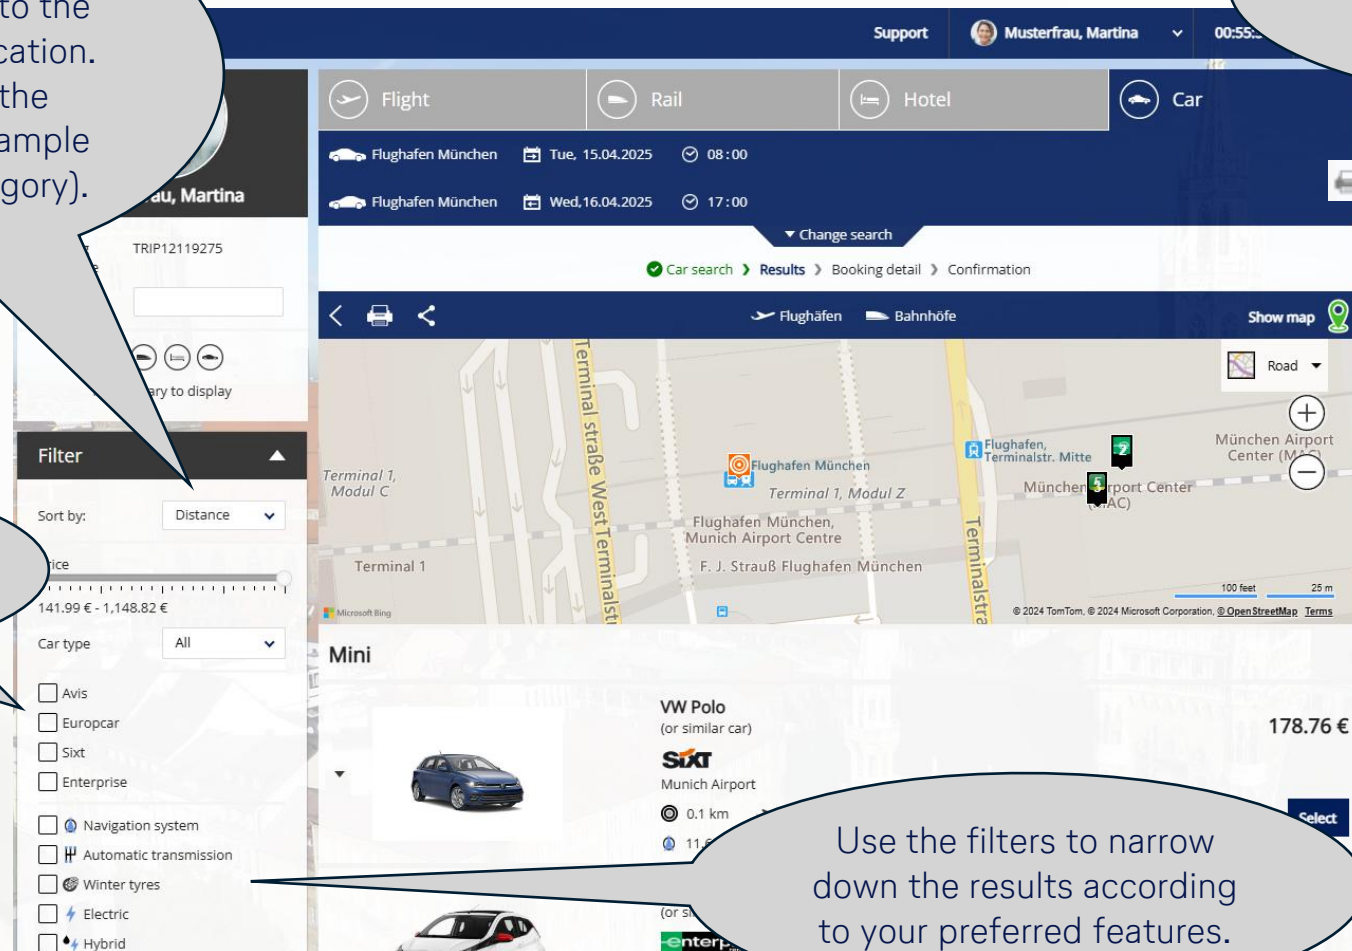

Useful functions for the rental car vacancy display

The search results are sorted by distance to the selected pick-up location. You can change the sorting here (for example by price or car category).

You can use the map to display the location of the rental car stations.

You can narrow down the results to your preferred provider.

Use the filters to narrow down the results according to your preferred features.

The screenshot displays the Lufthansa City Center rental car search interface. At the top, there are tabs for Flight, Rail, Hotel, and Car. Below these, the search criteria are shown: Flughafen München, Tue, 15.04.2025, 08:00, and Wed, 16.04.2025, 17:00. A 'Change search' button is visible. The main section shows a map of the Munich Airport area with various rental car stations marked. Below the map, a list of search results is displayed, including a 'Mini' car for 178.76 €. A 'Filter' sidebar on the left allows users to narrow down results by sorting (Distance, Price), car type (All), and provider (Avis, Europcar, Sixt, Enterprise). Additional filters for features like Navigation system, Automatic transmission, Winter tyres, Electric, and Hybrid are also present.
